**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. The status of claim 18 appears to be a typographical error, since the claim is NOT (currently amended), but instead (previously amended). The application has been amended as follows to correct this error:

In the Claims:

Claim 18: line 1, replace the status "(Currently amended)" with -- (Previously amended) --

***Drawings***

This application lacks formal drawings. Applicant is required to submit new formal drawings.

**REASONS FOR ALLOWANCE**

Independent claims 18, 19, 43, and 53 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach the specific combination of elements as claimed. In particular the prior art fails to teach *inter alia* a system for performing a simulated medical procedure:

- (As per claim 18), including a guiding sleeve connected to the tip on an endoscope comprising a ball bearing for rolling along an inner surface of a gastro-intestinal tract; and wherein a linear motor is attached to the guiding sleeve for providing tactile feedback by contacting the inner surface of the gastrointestinal tract.
- (As per claim 19), including a tactile feedback mechanism comprising a plurality of inflatable rings surrounding an endoscope.
- (As per claims 43 and 53), including a simulated organ and a simulated instrument, wherein the simulated instrument is an endoscope featuring an endoscope cable, the endoscope cable forming a loop that is modeled according to a mathematical model, wherein the

Art Unit: 3713

mathematical model features a plurality of polygons defined with respect to a spline, and wherein a size of the loop is determined according to a differential between an amount of the cable within the organ and a length of the organ from an entry point of the endoscope to the virtual location of the endoscope within the organ.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
